NETWORKING 4For SCHOOL (N4S)

Support school's efforts to provide our students with the best educational experiences during their formative years.

Every Parent/Guardian whose child is currently a student of FHPS is a **member** of the **N4S Community**.

NETWORKING 4For SCHOOL (N4S)

Vision

To be **valued partners** in school to enrich our children's primary school years

Mission

Enhance and complement the school's efforts in providing our children with a holistic education through close support and collaboration during their formative years.

*“MOE wants to strengthen our partnership with parents through the Parent Support Groups in all our schools. **We hope that our Parent Support Groups will not only support the school, but also expand their role to connect with one another and render help to parents whose children and families need more support.** I will encourage every Parent Support Group to form a sub-group, focusing on the mental well-being of children and families.”*

"I find it wonderful when I volunteer in school and my child's classmates call out to me 'Auntie Samantha' or 'Ethan's mummy' and I'm able to refer to my child's friends by name when he tells me about them."
~ Samantha

"I find it so wonderful that I can talk to my child after school about the various activities carried out in school without feeling like I don't understand her."
